

Heritage Commission

Heritage Commission

The purpose of a heritage commission, since 1992 and per RSA 673:1(II) and 674:44-b, is to offer a valuable means for local government to manage, recognize, and protect historical and cultural resources. They are intended to have a town-wide scope and a range of activities that is determined by each individual municipality and geared to that particular community's needs and wants. Basically, a heritage commission does for historical resources what a conservation commission does for natural resources: it advises and assists other local boards and commissions; conducts inventories; educates the public on matters relating to historic preservation; provides information on historical resources; and serves as a resource for revitalization efforts.
